

NATURAL RESOURCE DEPARTMENT

The Natural Resource Department is involved in many different activities throughout the year. Included is shellfish propagation, or solving dog issues. Occasionally we remove squirrels from fireplaces! We work closely with state and local agencies to help protect our wildlife and fisheries habitat. We will continuously work on projects to benefit the towns "Natural Resources".

We wish to thank once again Fire Department for their help replenishing the quahog beds, and also the Highway department workers for their help removing "large" wildlife and sea mammals from the beaches and streets!

In 2012 we responded to 496 animal calls, from loose dogs to rabid bats, to shellfish violations.

Please obey the dog laws, it helps to keep them safe. **Love them, Leash them and License them**
